How to View a .srt File in VLC

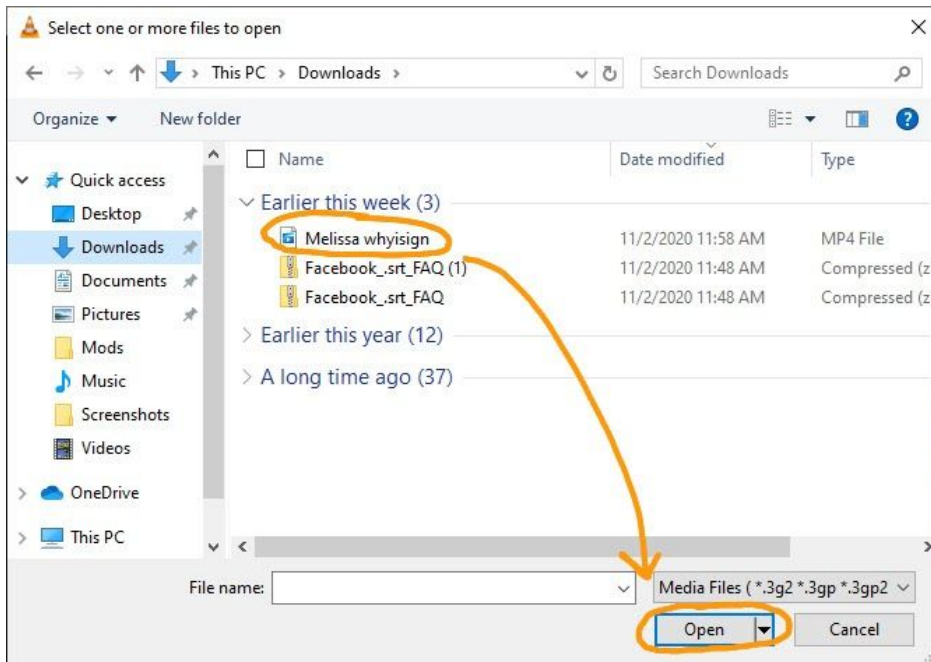

1. Open **VLC** on a MAC or PC
 - If you don't have VLC, download here <https://www.videolan.org/index.html>

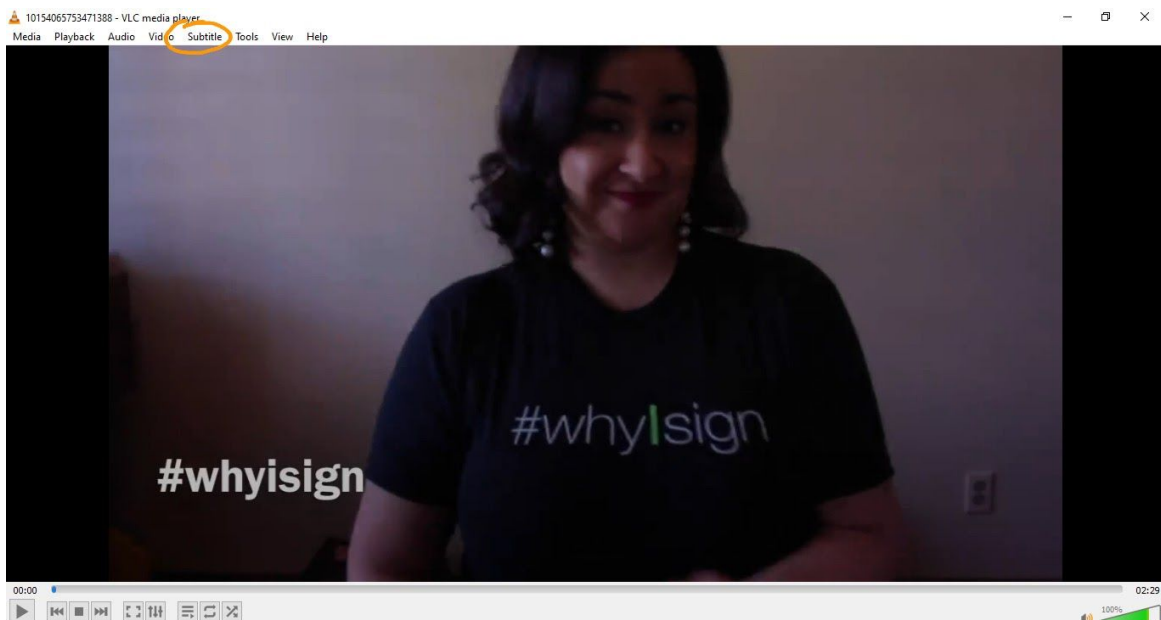

2. Go to **Media** and then click **Open File...**

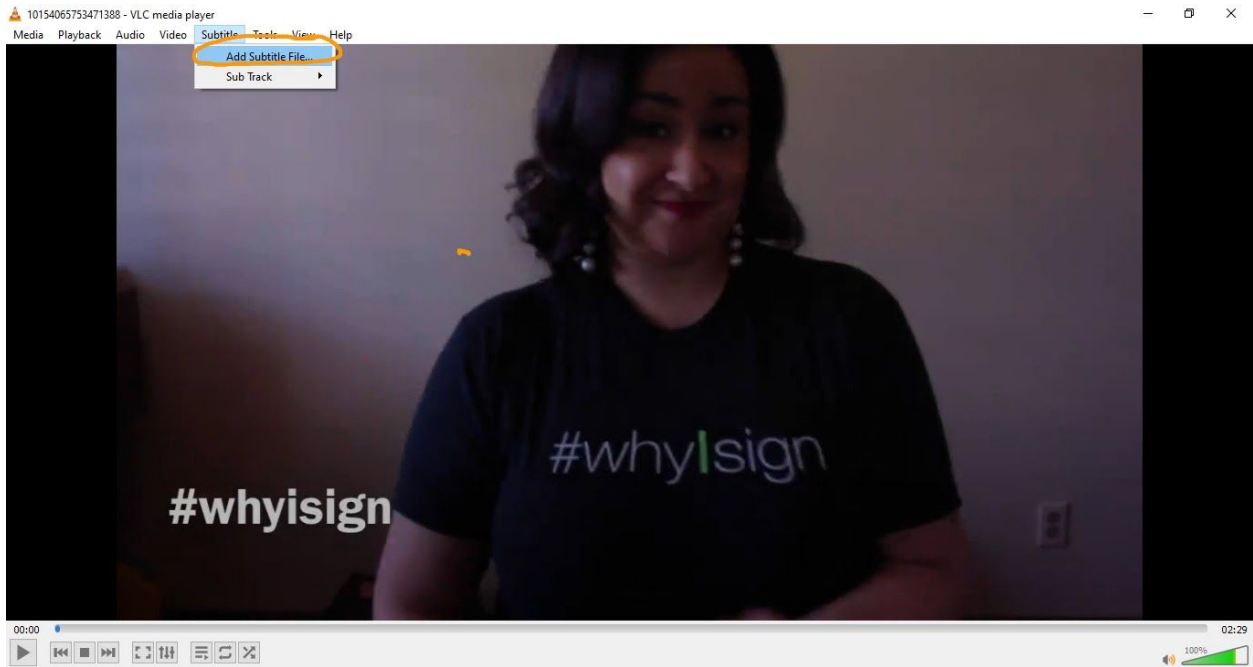

3. Choose the video that you want to add or view subtitles on and click **Open**

4. Once you select the video, if you want to add or view your .srt file you will next click **Subtitle**

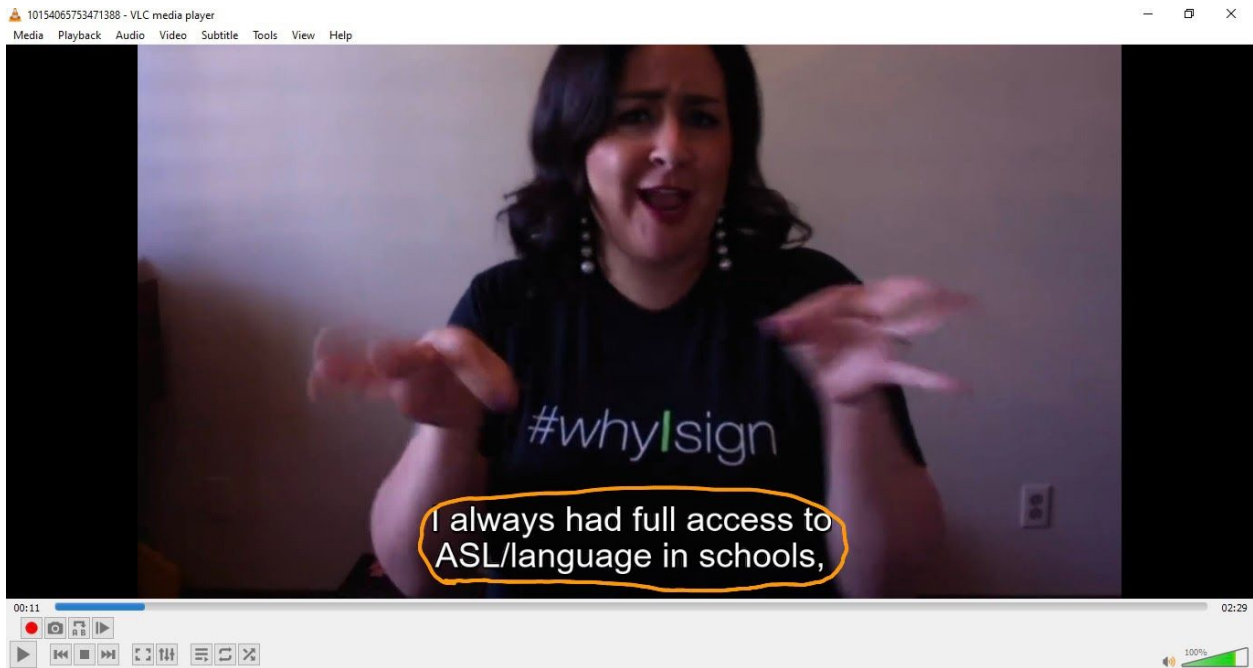

5. If you have already uploaded your .srt file, SKIP THIS STEP. If you need to upload your .srt file, click **Add Subtitle File...**

6. To view your .srt, click **Sub Track** —> **Track 1** & you will see that the file is uploaded

7. Lastly, click **Track** and your captions will appear!

ENJOY!
